Sleeping time
in summer

From odor control to scalp and hair moisture & damage

Turn your summer scalp problems into a refreshing feeling!

Scientize summer odor starting from the scalp

2 types of functional fragrance to **mask** and **harmonize** the various odor we concern in summer such as scalp odor by sweat, aging, smoking, and hair coloring odor.

COOL + WASH OFF scalp dirt!

2 types you can choose by refreshing sensation

Emphasis on cool sensation

This shampoo provides a cool and pleasant refreshing sensation to the scalp in the summer when stickiness and odor are a concern. The refreshing feeling persists, and gives the hair a smooth, clean feeling without becoming coarse after rinsing. Give a shiny finish and leads to beautiful skin and hair. Cool sabon fragrance.

Emphasis on damage care

Perfect for those who are picky and want to achieve both a refreshing cool feeling and damage care. It keeps a smooth finish by taking care of damage while preserving the color after coloring. Soft sabon fragrance.

Quick-drying & smooth!

Shorten the dryer time

Improved quick-drying

In summer when the scalp is sticky, we do not want to spend even an extra second drying hair. The hair mask, which can be used to cleanse the skin, provides intensive care to smooth hair ends while refreshing the scalp. It also shortens dryer time and leads to a quick-drying, silky finish.

Intensive care for hair and scalp during sleep hours Summer Night Care with Silk Moon formula

When it is hard to sleep in summer, people toss and turn more often, causing serious damage due to friction. Furthermore, dryness caused by air conditioner can lead to dry hair and scalp. The **Silk Moon formula** which moisturizes and helps repair at the same time, provides excellent care while sleeping.

Damage care

Reduces friction damage caused by tossing and turning in bed.

Moisturizing care

Intensive care not only during the day but also while sleeping.

How to use
cream shampoo effectively

Apply cream shampoo

Wet hair, then apply to the entire scalp and continue to apply all over the hair.

Cleansing massage

Massage the scalp to relax it. Using a brush will make the cleansing effect more effective. After massage, rinse thoroughly.

Cool feeling+ Damage care

Use the line to keep the hair and scalp moisturized until the morning.

Comfortable cool feeling

A cream-type shampoo that provides a comfortable cool feeling on nights when it is hard to sleep and even replenished the moisture in the hair. Pink clay^{※6} is blended in to thoroughly cleanse the scalp while caring for the hair ends. An elegant white lavender fragrance envelops you in a sense of coolness.

Keeps the hair and scalp moisturized while sleeping

This hair milk locked moisture in the hair until morning to prevent it from drying out due to air conditioner and friction in the summer. The Silk Moon formula moisturizes and helps repair hair while natural seed components^{※7} help keep it moisturized until the next morning. The slight coolness lasts for a while, it will keep you comfortable even on hot summer days.
